At Hotel Engine, we work hard to make our booking experience as enjoyable as possible for our customers. We understand that some customers value accruing reward points while others appreciate the best rate possible. That’s why we provide both. We will continue to list all Hotel Loyalty eligible rooms that our hotel partners offer us, while still showing exclusive member rate options that provide unmatched savings. We will continue to show you these low rates even when they aren’t eligible for the hotel loyalty program so that you have the choice to select the booking option that matches your travel preferences.

Admin-Specific FAQ's

1. Can I limit my users who have access to the loyalty point pass-through feature?

- a. Currently, you cannot limit access for individual users in your account. Your company account can be 'on' or 'off' for every user in your account. The feature is set to be 'on' for every user at launch. If you would like this feature removed for your company's account, please reach out to your Account Manager.

2. As an Admin, can I edit or add loyalty information for members of my team?

- a. If booking on behalf of one of your users, Admins can apply a loyalty program on the checkout page, but you will not be able to save the loyalty number to the user's profiles. If a user already has the number saved on their profile, the loyalty information will auto-populate at checkout, but the Admins cannot make edits or changes to a user's existing loyalty program information.

If booking on behalf of a guest (non-Hotel Engine member), Admins/Coordinators will have the ability to manually enter in the guest's loyalty information, but it will not save to the guest. It will be passed along to the hotel but will need to be re-entered again on future bookings.

3. *How do I input loyalty information if I am booking multiple rooms for multiple people?*

- a. If you're booking multiple rooms, the primary guest of every room can input their own loyalty number. The booking charge will always be directed to the Primary Guest of Room 1. However, the primary guest of additional rooms can earn points on any additional room charges during their stay.
