# How to Find the Right Lodging Solution for Your Transportation Company

## Why do you Need a Lodging Solution?

An efficient and cost-saving solution for managing hotel reservations makes an effective transportation and logistics strategy. Knowing where your travelers will stay (and finding ways to save money when they do) is critical to ensure your people, products, materials, fleet, and more are in the right place, at the right time.

## Why do you *Really* Need a Lodging Solution?

Corporate lodging solutions streamline the booking and reconciliation process. They offer better insights on trends and help enforce travel policies.
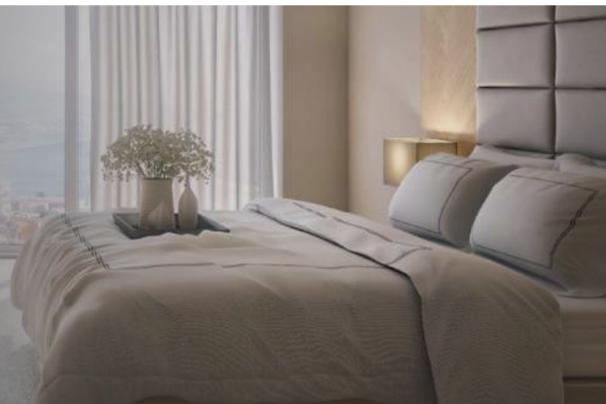

By creating more efficiencies, you're able to to snag a bigger piece of the estimated **$4.6 trillion** in revenue up for grabs in the U.S. transportation and logistics industry.

Lodging solutions make the entire lodging process easier start to finish, and help you save both money and time.

## What are the Different Types of Corporate Lodging Solutions?

Booking a hotel can sometimes be more complicated than it seems, especially if you're doing it at scale. While there are countless corporate lodging solutions out there, not all of them can do the heavy-lifting you need to always stay on route and on budget.

| Online Travel Agencies (OTAs) | Travel Management Companies (TMCs) | Locally Negotiated Rates | Or use… Hotel Engine |
|---|---|---|---|
| - Free to use<br>- Lack of business tools | - Good business tools<br>- Expensive to implement | - Good rates<br>- Time-consuming and frustrating process | - Great rates<br>- Expansive inventory<br>- Free to use<br>- Robust business tools included |

## How Hotel Engine can Help
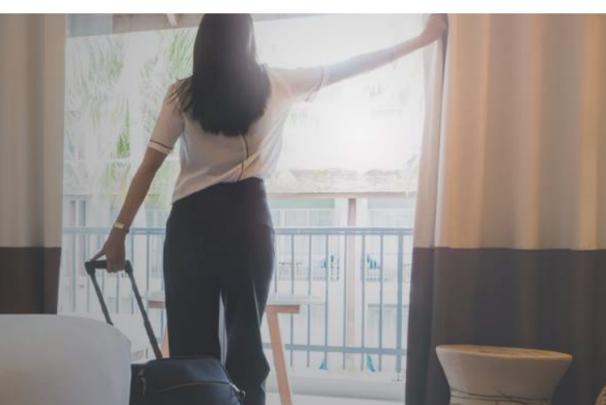

Save money, free up time, and find the best hotels wherever your team goes with Hotel Engine's easy-to-use corporate lodging solution. Hotel Engine makes it easy to search for hotels across the U.S. and even around the world, but there's more to this corporate lodging solution than just hotel booking!

**Easily Track Travel Trends**
Hotel Engine's dashboard allows you to access real-time insights into your team's travels. Track total bookings and spend down to the individual user so you don't waste a minute —or a dime.

**Hotel Loyalty Rewards**
With Hotel Engine, you and your travelers can still collect hotel chain loyalty points on bookings you make through the platform, in addition to the HE Rewards you'll rack up with every stay.

**Simplify Your Spending**
From paper receipts to individual employee credit cards, travel spend can get out of hand—and fast. Hotel Engine keeps budget mastery within reach.

**700,000+ Strong**
Hotel engine's network is more than 700,000 properties strong and in more than 185 countries.

**24/7 Customer Service**
A U.S. based member experience team is available around the clock. Members can call them any time, whether you need a last-minute modification to a booking, or simply have a few questions about an upcoming trip.

**Wherever your routes take you, Hotel Engine is along for the ride.**
